**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Broadband competition is needed to drive innovation. Look at Korea and their internet speeds are multiple times faster than the USA. It is like having one car company for customers to choose from. If one car company has a monopoly they would not have to listen to customers needs and just build cars the way they want. Same with broadband if there is only one broadband, the broadband company can lower speeds at any time they want and not lose customers.
